Subject: Division Directive to Submit a Notice of Intention to Commence Small Mining Operations or to Reclaim, Lance Beebe, Unpermitted Spring City Mine, S/039/0035, Sanpete County, Utah

Dear Mr. Beebe:

As per the requirements of R647-3-113.5, the Division of Oil Gas and Mining requires that all mining operations in the State of Utah submit and maintain a mining permit approved by the Division. This includes submittal of a Notice of Intention and a reclamation surety. On May 30, 2013, the Division inspected your landscape rock mine located east of Highway 117 approximately 1.25 miles north of Spring City. The Division has not approved a mining permit for your operation.

The Division appreciates your request of June 3, 2013, for permitting information. The Division provided the requested information on that day but has yet to receive a Notice of Intention for this site.

You are hereby directed to EITHER:

- 1) Submit a Notice of Intent to Commence Small Mining Operations (Notice), a Reclamation Contract, small mine permitting fees (\$150), and reclamation surety by July 22, 2013. Permit documents are found at the Division website at http://linux1.ogm.utah.gov/WebStuff/wwwroot/minerals/permit_forms.html.

OR

- 2) Regrade all mining-related disturbances by July 31, 2013. The site will also need to be revegetated. Unless the landowner prefers otherwise, it is recommended that the site be reseeded during the fall of 2013 on freshly-roughened soil.

Failure to either proceed with permitting or to complete reclamation as required may result in enforcement action and associated fines.

If you have questions or concerns about this letter, please contact Peter Brinton at 801-538-5258, or me at 801-538-5261. Thank you for your cooperation.

Sincerely,

A handwritten signature in dark ink, appearing to read 'P. B. Baker', with a stylized flourish at the end.

Paul B. Baker
